Experience

Founder & Developer — Xonobox (independent studio) · 2024 – Present

- e-famenoPlus — Harena Health Mutual (Mutuelle de santé HARENA/SMMEC Madagascar) · 2024 – Present :
 - Phase 1 (hired by PSI Madagascar, April 2024 – January 2025): digitized member enrollment and payment reimbursement. Android app for field agents and web admin app.
 - Phase 2 (direct contract with Harena Health Mutual): the client chose to continue working directly with Xonobox, with no intermediary.
 - Sprint 1 (delivered): full member enrollment management.
 - Sprint 2 (in progress): healthcare provider management, collections and reimbursement dashboard for members and providers.
 - Sprint 3 (requested by the client): financial management for the mutual.
- Stack: Java/Android, PHP/Symfony, MySQL
- Carheav (local client) — ride-hailing platform: 2 mobile apps (rider and driver) plus a web admin dashboard (rides, users, vehicles). Demo presented to the client, production launch in preparation. Stack: Flutter, Vue.js, NestJS, PostgreSQL, REST API

Full-Stack Developer (employee) — Sunsoft-Sunrise, Antananarivo · 2020 – Present Full-stack development and production deployment of company applications on a Linux VPS. Projects delivered for PSI Madagascar (confidential code and data):

- PharmaPlusLite — sales and inventory management for medicine depots. Built and maintained the mobile app (Java/Android) and the web app (PHP/Symfony, MySQL).
- DataPharm — web application centralizing medicine management for pharmacies in Madagascar. Front-end and back-end development (Vue.js, NestJS, MySQL).

Technical Skills

- Front-end: JavaScript, TypeScript, Vue.js, HTML/CSS, Bootstrap
- Back-end: NestJS, PHP/Symfony, REST APIs
- Mobile: Flutter, Java/Android
- Databases: PostgreSQL, MySQL, Supabase
- Architecture & quality: Clean Architecture, MVC, SOLID, Design Patterns, TDD, unit testing
- Deployment & DevOps: Linux VPS (production), Docker, CI/CD (GitHub Actions), Vercel, Supabase, PowerSync (offline-first sync)
- Tools: Git, GitLab, Bitbucket
- AI-assisted development
